To whom it may concern: This is in regards to the NAB's petition 04-160. As a paying customer of XM Radio i do not feel it is up to the NAB to have any say whatsoever of what XM Radio broadcast. We are all paying customers of their service and just as any service provider in America they should be able to provide services that compete with their competition. It is personally a great asset to have local weather and traffic updates. It really is an innovative service that i hope to see grow in the coming months and years. I support XM radio 100%. Thank you for your time.
